

Rapid CNC-Machining

ARRK-SPG is able to offer customers a wide range of CNC machining options from our niche CNC centres in Europe, to our larger volume operations in the Far East.

Our strengths

Why use ARRK-SPG's CNC Service

- Speed of delivery
- Huge capacity
- Outstanding part quality
- High precision
- Wide range of material and finishing options
- Highly competitive service and rates

Materials offered

- PMMA
- PC
- POM
- PA6-GF30
- PBT
- PBT-GF30
- PEEK
- PPS-GF
- PTFE
- PVC
- ABS
- ASA
- PC/ABS
- Aluminium
- Steel
- Brass
- Stainless Steel
- EPP-Foam
- FDA approved materials
- **And many more...**

Block modelling service

We are able to produce exceptionally high quality visual representation block models. Using a combination of high speed machining and traditional model making, these models are made from a variety of materials.

The components are then finished, painted, metallised, screen or pad printed, and assembled to an realistic model. This block modelling service is perfect for exhibition or display models.

Machining Plastics
